May 3, 2018

California State University, Long Beach

The program will be available the week of the Symposium

## About the SSRIC

Founded in 1972, the Council is the oldest of the disciplinary councils in the California State University system. With representatives from each of the CSU campuses, the Council is dedicated to assisting students and faculty in their learning, teaching, and research by:

- Providing a forum for sharing information about social science data and computer products;
- Initiating and conducting training programs;
- Recommending computerized social science projects in the CSU curriculum;
- Encouraging the collection and distribution of social science data and computer-related instructional and research materials;
- Advising CSU administrators on policies related to providing quantitative social science data for research and instruction;
- Supporting CSU student, faculty, and staff users of subscription data bases from the Inter-university Consortium for Political and Social Research (ICPSR), and the Roper Center, as well as of unrestricted data bases;
- Presenting Workshops on use of these data, as well as on SPSS, SDA, and other topics as needed;
- Organizing and sponsoring the annual SSRIC Social Science Student Symposium (S<sup>4</sup>); and
- Offering value-added teaching resources, including modules, exercises, and online textbooks.
