### **OFFICIAL RULES for SOCIAL SCIENCE STUDENT SYMPOSIUM**

Thanks to a generous donation from Dr. Gene Geisler, Professor Emeritus of Political Science at San Francisco State and a key founding member of the SSRIC, the Symposium will include three \$500 best paper awards (Faculty Memorial Awards) as well as a small amount to defray travel costs for other papers presented.

#### **I. BEST PAPER AWARDS**

Awards will be in three categories: The McCall Award for best undergraduate paper, the Nesvold Award for best graduate paper, and the Rummels Award for paper demonstrating the best use of quantitative data. Awards will be based only on the written papers submitted, but papers must actually be presented in order to be eligible for an award.

##### **a. McCall Award for Best Undergraduate Paper**

The award for best undergraduate paper is named after Dr. Charles McCall (Political Science, Bakersfield). Charles was one of the SSRIC founders. He was SSRIC Council Chair (AY 1974-75), served on the Council of the Inter-university Consortium for Political and Social Research, and was ICPSR Council chair. He died in 2013.

##### **b. Nesvold Award for Best Graduate Paper**

The best graduate paper award is named after another of the Council's founders, Dr. Betty Nesvold (Political Science, San Diego). Betty was the very first SSRIC chair (AY 1972-73). Like Charles, she also served on the Council of the ICPSR, and was ICPSR Council Chair. She died in 1992.

##### **c. Rummels Award for Best Use of Quantitative Data**

The award for the best use of quantitative data is named after Gloria Rummels (Staff, State University Data Center [SUDC]). Until the early 1990s, SUDC served as the "hub" for the data bases, and the late Gloria Rummels was one of several staff members who provided fantastic support for data users. From the time of her death in 1985 until SUDC was disbanded some years later, Gloria's SUDC colleagues funded this prize out of their own pockets.
